Full-stack developer with 5+ years of experience in the hospitality and energy sectors. Designed and built 2× award-winning booking systems used by leading Nordic venues and a global pricing platform adopted in 10+ markets. Led UI modernization, improved accessibility and performance, and integrated systems like Stripe and Oracle. Adapted to both startup speed and enterprise scale. Certified in Azure and AWS, with hands-on experience delivering cloud-native, scalable solutions.

SELECTED EXPERIENCE

NORDCLOUD | Senior Developer

Apr 2022 - Present

Global Pricing Platform

- Redesigned core navigation and pricing workflows using React, TypeScript, Material UI, and Redux Toolkit, streamlining regional user flows and improving UI consistency and accessibility
- Optimised large-scale data rendering and responsiveness for pricing tables with thousands of rows using react-window, and reduced redundant API calls by up to 50% through react-query caching
- Maintained 100% test coverage for new features with Jest and CI thresholds, boosting overall coverage by 10%
- Integrated backend-generated types and implemented feature flags to enable safe and region-specific rollouts

DevOps Foundation

- Led frontend development with React, TypeScript, and Material UI for an internal tool automating Azure DevOps project setup across teams, standardizing workflows and reducing manual setup time from hours to minutes
- Built multi-tenant authentication with MSAL and Azure AD, enabling secure external team deployment via SSO
- Maintained 100% test coverage with Playwright and Jest, with clear documentation to support adoption across teams

MEETINGPACKAGE | Full-stack Developer

Sep 2019 - Apr 2022

Booking Engine

- Modernised a white-label venue booking platform using Vue, Vuex, and Bootstrap, improving the end-to-end booking flow for hotel groups like Scandic and Nordic Choice, as well as smaller independent venues
- Built a themable embeddable booking widget, enabling suppliers to deploy branded booking tools on their own sites
- Supported 2 junior developers through knowledge-sharing sessions and regular pair programming

Venue Sale Management

- Modernised key dashboards using React, Redux, and Material UI, starting with a new analytics view and progressively migrating legacy jQuery and PHP codebases without disrupting existing workflows
- Integrated Oracle and Mews systems to streamline hotel operations, contributing to award-winning hotel platform

SIDE PROJECTS & HACKATHONS

- **Data 4 Healthy Recovery 2021:** built a simulation dashboard that won 1st place in an EU accelerator hackathon
- **Bumi Cafe 2020:** built 2 key public pages and added admin features in WordPress to support an on-time launch

TECHNICAL SKILLS

- **Frontend:** Typescript, React, Next.js, Vue.js, CSS3, Tailwind CSS, shadcn/ui, Material UI
- **Backend:** Node.js, Express, Prisma, Drizzle ORM, Zod, MongoDB, MySQL, PostgreSQL
- **Cloud & Devops:** Azure, AWS, Serverless, Docker, GitHub Action
- **Testing & Others:** Jest, Cypress, Playwright, Stripe API, Figma, Supabase
- **Languages:** English (Full Professional), Vietnamese (Native), Finnish (Basic)

CERTIFICATE

- [Azure Developer Associate \(AZ-204\)](#) • [Azure AI Fundamentals \(AI-900\)](#) • [Azure Fundamentals \(AZ 900\)](#)
- [AWS Solutions Architect Associate \(SAA-C03\)](#) • [AWS Cloud Practitioner \(CLF-C02\)](#)
- [Professional Scrum Master™ I \(PSM I\)](#)

EDUCATION

BBA, Business Information Technology, LAB UAS

2016 - 2020
